Courses

- Computer science and engineering

WORK EXPERIENCE

Apprentice Trainee

Radical Minds pvt.Ltd.

06/2024 - 08/2024

Gurugram

Business process outsourcing

Achievements/Tasks

- In my two months as a Technical Support Specialist, I handled customer issues via phone, email, and chat, resolving problems with software, hardware, and network connectivity. I documented support requests and followed up to ensure customer satisfaction.

CERTIFICATES

Mern Stack Certifications (01/2024 - 06/2024)

Apna College Completed comprehensive training in the MERN stack (MongoDB, Express.js, React.js, Node.js), acquiring advanced skills in building and deploying dynamic web applications. Gained hands-on experience in full-stack development, including RESTful API design, front-end and back-end integration, and database management.

Digital marketing Certifications (06/2021 - 07/2021)

Udemy Completed an extensive course in Digital Marketing, covering essential strategies and tools for online brand promotion. Acquired practical skills in SEO, social media marketing, content creation, email campaigns, and data analytics. Developed a comprehensive understanding of digital marketing techniques and their application to drive business growth.

PERSONAL PROJECTS

Wanderlust (02/2024 - 03/2024)

- Developed a comprehensive web application inspired by Airbnb, utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js). The project features user authentication, property listings, booking management, and a dynamic search interface. Implemented responsive design and integrated real-time data handling, showcasing skills in full-stack development and creating a seamless user experience.

Trade Master (08/2024 - Present)

- Trade Master is a modern trading platform designed to provide a seamless and cost-effective trading experience, inspired by the success of Zerodha. Our platform is tailored to meet the needs of both novice and seasoned traders with a focus on simplicity, low costs, and advanced trading features.

OTHER ACTIVITIES

Podcasting, traveling, Vlogging, Digital marketing,

In free time I does all these Activities accordingly
